

NED-DICE ENERGY & WATER INNOVATION CENTRE

Aging and performance of a shipment of solar panels checking assignment at Port Qasim

The team consisting of Dr. M. Mohsin Amman, Lead Solar Panel Testing Services and Dr. Usman Allauddin Centre Director completed an assignment of testing services on 14th May, 2019. The Examination Department at Port Qasim approached the Centre and requested to perform the aging and performance check of a shipment of solar panels they have received. The services were provided by the Centre.
